

the number of thread to use must be determined by the thickness of the coronation cord intended for the purpose.

For insertion for towel ends, scarfs or pillow cases use No. 3,570 coronation braid; No. 30' cordonnet special crochet cotton; size 10 crochet hook. The d. c. s. is the only stitch. This is crocheted over the braid and is grouped in three double crochet stitches to each loop of cord. If a finer crochet thread is used, one or

two single chain stitches must be crocheted between the double crochet stitches in order to keep the pattern even. In the given cut two rows of d. c. s. are used.

This illustration makes everything so plain that anyone who can crochet the simple stitches can make this lace. It will be seen that two rows of the same stitch and pattern is used on each side of the twisted braid.

(The next lesson will be on insertion and lace.)

INSERTION FOR TOWELS

PRIMA DONNA GIVEN \$2 A MINUTE TO PLAY "CARMEN" FOR MOVIES

A special train bearing Geraldine Farrar, famous prima donna, and her party of relatives, maids, hair dressers, managers, etc., etc., arrived in Los Angeles recently, where the famous singer participated in the movies for the Lasky films.

Miss Farrar went directly to the Lasky studios, where she is engaged

at the magnificent sum of \$2 a minute to appear in three or four big pictures.

Miss Farrar declares many of the notable singers have been waiting for some one to break the ice and it will not be long before others follow suit. She is the first great singer to perpetuate herself in the film.
